"Thousands Have It and Don't Know It," Says a Physician. Frequently Mistaken for Indigestion—How To Recognize and Treat.

"Thousands of people suffer more or less constantly from furrowed, coated tongue, bad breath, sour burning stomach, frequent vomiting, rumbling in stomach, bitter eructations, gas, wind, and stomach acidity, and call it indigestion when in reality their trouble is due to catarrh of the stomach. Catarrh of the stomach is dangerous because the mucous membrane lining of the stomach is thickened and a coating of phlegm covers the surface so that the digestive fluids cannot mix with the food and digest them. This condition creates a deadly disease in the stomach, and the patient suffers from the blood is polluted and carries the fatal disease without the patient being aware of it. The blood is polluted and carries the fatal disease without the patient being aware of it. The blood is polluted and carries the fatal disease without the patient being aware of it."

In catarrh of the stomach a good and safe treatment is to take before meals a teaspoonful of pure Bismuth Magnesia in half a glass of hot water as hot as you can comfortably drink. This condition creates a deadly disease in the stomach, and the patient suffers from the blood is polluted and carries the fatal disease without the patient being aware of it. The blood is polluted and carries the fatal disease without the patient being aware of it."

son is suffering from a severe cold at present, but aside from that he is none the worse for his experiences "over there."

In regard to the matter of closing the stores Friday evening, one merchant suggested Thursday, that it would not be wise to do so as trading in the stores in this city Friday nights was a long established custom and the change would not be favorable to a majority of the merchants. As a sort of solution to the matter he thought a general effort to inaugurate the closing of stores Thursday afternoon during the six months from May to October would be the better and more advantageous thing to do for all concerned.

## DANIELSON

Announcement was made Thursday of the sale of the Exchange building owned by Mrs. Esther Jacobs, Mrs. Hugh Buchanan, both of this town, and Mrs. F. L. Butts of San Luis Obispo, Cal., to Abraham Herman, brother of Henry Herman, who is engaged in business here. This is one of the most important real estate transfers recorded in Danielson in a number of years. The building is a three-story brick structure, opposite the railroad station, and facing Main street, and its stores on the street floor are occupied by A. H. Armstrong, Gaston A. Mandon and the Burroughs Drug Store.

The second floor is given over to offices and the third floor is entirely occupied by Morish lodge, No. 15, A. P. and A. M. and other Masonic bodies. The block is said to have sold for \$3,000.

Mr. Herman, the new owner, has been living in California, but is now interested in the town where the property and brought about the sale.

Borough officials and officials of the Danielson and Plainfield Gas and Electric company are giving consideration to a plan for lighting the town by night street lighting in Danielson.

The present yearly contract for what is known as a moonlight schedule of service costs the town \$1,000. The street lights are shut off each night at midnight and on moonlight nights during the month there is no street lighting service after the moon becomes bright.

It is understood that the lighting company has offered to supply an electric light and a street light for \$2,500 a year. It is believed that if the lighting company would reduce the price for such a contract to \$1,000 a year that many towns would favor such a proposition at the annual board meeting, which comes in April.

Had a little letter having to do with a horse transaction. It wasn't written by Pierre Pejac, who has not been heard from lately, but is an authentic copy of an original communication.

In his address on Roosevelt the Statesman Sunday morning Mr. Reynolds said: For constructive work and individual initiative are present, in fact, no American, ever achieved results comparable to those achieved by Roosevelt the seven years he was the head of this government.

Great achievements were the passage of such measures as the Dilliver-Heppburn railroad act, the employers' liability act, the establishment of the department of commerce and labor, pure food and drugs act, federal meat inspection, navy doubled in tonnage and greatly increased in efficiency, the great statesman, who led the world state military brought into co-ordination with the canal zone acquired and the work of excavation pushed forward with great energy, settlement of the Russo-Japanese war, the inauguration of an annual governors' conference and the greatest of all modern movements—the improvement of the conditions of country life. No one now doubts that this movement is one of the greatest as well as the wisest of our times. When Roosevelt appointed the commission it was ridiculed and caricatured everywhere throughout the country. But its hour had come and in spite of the policy of narrow-mindedness which had surrounded it, the nation has now caught the idea in the mind of Roosevelt and measured the gulf between the mind of a statesman and the narrowness of a politician.

## An Inside Bath Makes You Look and Feel Fresh

Says a glass of hot water with phosphate before breakfast keeps illness away.

Physicians the world over recommend the inside bath, claiming this is of vastly more importance than outside cleanliness because the skin pores do not absorb impurities into the blood, causing ill health, while the
